Creative Engineering

ELECTRONIMATION™
To date, we have completed over one hundred Electronimation™ shows, many of these being "The Rock-afire Explosion" for ShowBiz Pizza Place restaurants. By January 1, 1983 there will be over two hundred SPPs open to the public with "The Rock-afire Explosion" performing in each.
Creative Engineering
SHOWBIZ PIZZA PLACE
In addition to this, we have just embarked on an all-new, never before attempted by anyone venture . . . we call it our Extravaganza of Electronimation Excellence (EEE) project. The EEE, with its three rotating stages totaling ninety feet in length, twenty-five fully animated characters, plus numerous special effects will, by far, be the largest, most technical and creative animated show ever to be built in the history of animation and offered for sale to the amusement park industry.

CREATIVE ENGINEERING, INC.

ANIMATION WORLD CHAMPIONS — 1981

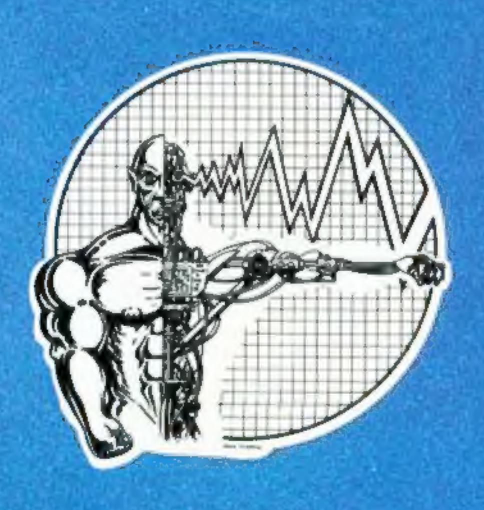

takes great pleasure in announcing that it is now in a position to accept orders of any variety and size for delivery in 1983, ranging from one or two Electronimation™ characters to shows of twenty to even fifty characters with elaborate stage settings, either in a dark ride with moving audiences or with moving stages, or in a still setting.

CREATIVE ENGINEERING, INC.

We have over 150 skilled employees, production facilities of 136,000 square feet, a large team of artists, designers, mechanics and in-house musicians, and our own recording studio, all ready to serve you, until our production capacity for 1983 is filled. Ask about financing . . .

We can undertake custom shows — just send us your artists' drawings. If you don't know what you want and are looking for suggestions, tell us your theme, and we'll be happy to help, complete with sketches and prices. A fee applicable toward purchase price is charged for total proposals. Ask about complete package financing . . .

For information pertaining to the purchase of your own electronimated show, call or write:
